

Lady Wildcats reap holiday trophies

After a first place team win at the Branson Invitational Tournament three weeks ago, the Lady Wildcat wrestlers took second place in the nationally-ranked girls' Wonder Woman Tournament in Columbia on December 29 and 30.

According to CHS ladies wrestling coach, Nathan Fortner, 79 teams participated in the invitational tournament in Columbia.

"The girls wrestled really well," Fortner said. "They beat out several higher-ranked schools in the state, so this second-place win will improve their state ranking."

According to Fortner, the invitation was issued to full high school wrestling teams, unlike state wrestling competitions, where wrestlers must qualify individually.

"We had 11 wrestlers who attended and participated in the tournament," Fortner said. "I think they had a lot of fun."

In his first year as Cassville High School girls' basketball coach, Reed Smith is leading the Lady Wildcats into a solid season with eight wins and four losses, so far.

Over the weekend, the ladies took second place in the Southwest Invitational Tournament at Southwest High School, where eight teams participated.

"Three of our players - Marianne McCrackin, Sharayah Seymour and Riley Morris - received 'All Tournament' honors," Smith said.

Shown above, left to right, in the front row, are: Riley Morris, Sharayah Seymour, Marianne McCrackin, and Ashlynn Bryan; middle row: Tyler Hayward, Pazlee Burbridge, Tori Mitchell and Chloe Moller; back row: Aleigha Bryan, Makaiden Bolles, Kyla Bowling, Elly Ramaeker, Hailey Gautney, Maci Barton, Madison Halterman and Macie Walker.

Local business owner discusses impact of minimum wage increase

Ezra DeVore

Across the nation, many small businesses and workers continue their financial recovery from the Covid-19 pandemic. In the wake of an economy and workforce that will not soon forget the pandemic's ongoing impact, 2022 is a critical time for small businesses.

A minimum wage increase took place in Missouri on January 1 which raised hourly rates from \$10.30 to \$11.15. The increase is a result of Proposition B, approved by voters in 2018. Proposition B affirms a minimum wage increase on the first of every year by 85 cents

through 2023. On January 1, 2023, the minimum wage in Missouri will rise to \$12 per hour.

Questions have arisen about this event's impact on Missouri's economy, and what it portends for the future of small businesses.

Because most businesses are already paying higher rates than the minimum wage, this may not have an immediate impact on small businesses. However, because the state's minimum wage rarely constitutes or surpasses a livable wage, and with the cost of living and cost of conveniences also rising, a problem arises in attempt-

ing to retain employees, says Whitley Pharmacy owner, Logan Whitley.

"I've always tried to keep my pay rates above the minimum wage," he said. "However, if the increase surpasses \$12 an hour in 2023, there might be a problem. From a personal standpoint, it hasn't affected me that much as far as what I pay my employees, but it has made it harder to find employees, because larger corporations - Walmart and places that are in multiple states - they're all raising their personal minimum wage. Then it affects us local-

State, county see significant uptick in COVID cases

Sheila Harris

Positive cases of COVID-19 are again on the rise in the county and state as the Omicron variant sweeps the nation after the Christmas holiday weekend.

Although the county's official numbers were not available at press time, Barry County Health Department administrator Roger Brock said that Monday alone saw 55 new positive test results at his offices.

Barry County E911 director Mike Phillips reported that ambulance transports to hospitals have also risen sharply.

"Most of the transports are COVID-related," he said.

Statewide, the dashboard for the Missouri Department of Health and Senior Services (DHSS) reported, on January 4, after PCR tests were administered, an increase of 38,685 new confirmed cases of COVID for the past seven-day period. The numbers represented an average of 5,526 cases per day. An additional probable 9,768 cases were reported after the administration of antigen tests.

Twenty-one people in Missouri died over the same

seven-day period as a result of COVID-19, with cases confirmed by positive PCR tests.

An average of 20,661 new PCR tests, per day, were administered statewide over the seven-day counting period prior to January 4. An average of 10,830 new antigen tests were administered, per day, for the same seven-day period.

The positivity rate for the PCR tests was 28 percent; the antigen tests' positivity rate was 15.1 percent.

As of January 2, 2,734 COVID patients were hospitalized, 606 were in ICU, and 349 were on ventilators.

According to a morning report in The New York Times, the symptoms of the Omicron variant appear to be milder than those of the Delta variant; however, because it is more easily transmissible, the explosion of cases across the U.S. is taxing healthcare systems.

Steve Edwards, CEO and president of CoxHealth, said hospitalizations had spiked Thursday by nearly 75 percent over the number nine days prior. He's concerned about having enough staff to

handle an increasing amount of patients.

Mercy Springfield reported a 24 percent increase in hospitalized patients over the same nine-day period.

Free testing kits for COVID-19 are available from the DHSS, although, due to high demand, they are becoming scarce. There is a temporary pause on orders to update system accessibility. Ordering is scheduled to reopen Thursday, Jan. 6. In order to improve the ordering system and allow contractors to continue shipping kits in a timely manner, DHSS will make a limited supply available each

day through January.

Because of the increased demand and limited test kit shelf-life, DHSS requests Missourians only submit requests for immediate testing needs.

The DHSS says that testing provides information regarding the presence of the virus at a specific point in time and if it's taken too early or too late, could provide a false sense of security due to lower levels of viral load.

View testing options at health.mo.gov/communitytest or check with your local healthcare provider or public health department.

Pilot dies in ultralight crash near Golden

Sheila Harris

Kenneth Phillip Taylor (53), of Golden, died Thursday when the experimental aircraft he was piloting crashed near Golden.

According to Barry County Sheriff Danny Boyd, it was Taylor's first solo flight in

the ultralight aircraft, which flew 500 feet before striking a nearby home and crashing.

According to Boyd, because of their size, ultralight experimental aircraft do not require licensing nor registration from the Federal Aviation Administration.

Monett postal carrier injured in dog attack

Sheila Harris

According to Barry County E911 director, Mike Phillips, emergency personnel were dispatched to an address just outside of Monett at 12:49 p.m. Tuesday, where a dog attack had been reported.

Responders arrived to find three victims with multiple

lacerations after being attacked by three dogs.

According to Barry County Sheriff Danny Boyd, a homeowner, a postal carrier and a passing motorist who stopped to assist suffered multiple lacerations.

The postal carrier was transported to a hospital by ambulance with serious in-

juries. A second victim was driven for treatment in a private vehicle.

The dogs were taken into

custody by a Monett Animal Control officer.

The incident is under investigation.

ly when places like that, for minimum skill jobs, are paying \$15 an hour. That makes it difficult for local employers to match that."

Whitley says this may also pose a problem in the future, if employers start offering more part-time positions and fewer full-time jobs.

"That's going to present problems in the workplace," Whitley said.

"One thing an increased minimum wage will also do is affect the ability of small businesses, like mine, to give a yearly salary increase, which is vital to a healthy small business model. That's an aspect that helps us keep employees long term. If we must start full-time employees at a higher starting wage, we will be unable to entice them to stay without offers of yearly increases," he added.

"We aren't there yet, but it's getting there," Whitley concluded.

Dear Editor,

As you all should know, a year ago this Thursday was a very dark day for our country. It all started with a big lie. I was taught to tell the truth, no matter what the case may be. When you swear an oath to God in any

form, you are bound by that oath to God. People in court, politicians, military etc., take an oath to God and country. We have laws that were passed to confront the violation of oath. We have an ex-president, politicians, and judges that refuse to confront the violation of oath. Truth be told is the only way “We the People” can have justice in this country. We have the power to stop this corrosion of morality. We must demand that people who lie are held responsible. Go vote these officials out of office and bring back some class in our country! I love my country, but it is sad what it has become. Just remember the 6th forever! Mark DeShazer Exeter

MSHP Reports Zero Traffic Fatalities

Colonel Eric T. Olson, superintendent of the Missouri State Highway Patrol, provides the following preliminary statistics related to the New Year’s holiday weekend: No one was killed in a traffic crash during the 78-hour counting period, which began at 6 p.m. Thursday, December 30, 2021, and ended at 11:59 p.m. Sunday, January 2, 2022. There were no boating crashes or drownings over the 2022 New Year’s holiday counting period. 2022 New Year’s Holiday Traffic Statistics Troopers investigated the following: • Traffic Crashes: 406 • Traffic Crash Injuries: 91 • Traffic Crash Fatalities: 0 • DWI: 94 [Note: Last year during the 78-hour New Year’s count-

ing period, there were 1,247 traffic crashes statewide. In those crashes, six people were killed and another 389 people were injured. During the 2021 New Year’s holiday, troopers worked 173 crashes including three fatalities and 48 injuries. Troopers arrested 94 people for driving while impaired last year.] The fatality statistics in this news release could change if late deaths occur, or if other departments report fatal traffic crashes after this news release is sent to the media. Too many people die in traffic crashes each year in Missouri. The choices you make when you’re behind the wheel matter. Make good choices, so you’ll never have to say, “If I could just go back.” Follow the Missouri State Highway Patrol on Twitter @MSHPTrooperGHQ.

Give life during CBCO’s 56-day challenge

Give blood during January and you’ll receive a pullover hoodie, plus you can sign up to give again for a shot at \$1,000.00 The beginning of the year is a time to pledge to make positive changes in your life. In 2022, why not resolve to give blood twice during Community Blood Center of the Ozarks’ (CBCO) 56-Day Challenge. The rules are simple. Give blood during January at any CBCO donor center or blood drive. Fill out a registration form online and make another appointment to give before April 15. Then, make that second successful donation. If you complete these steps, you’ll be entered to win a \$1,000.00 VISA gift card, generously provided by the Adam Swenka Team at Flat Branch Home Loans. Also, during the month of January, successful donors at all CBCO blood drives across the region will receive a pullover hoodie, while supplies last. Soft, warm, and colorful, these hoodies are perfect for a cold winter day. National Volunteer Blood Donor Month The month of January has

been designated as National Volunteer Blood Donor Month. January is an appropriate time to observe this important national event. “First, January is traditionally a month of significant need,” CBCO Media Relations Representative Chris Pilgrim said. “Elective surgeries are often postponed during the busy holiday season and scheduled during the month of January. As a result, the need for blood can increase in the first full winter month. It is vitally important to increase reserve levels of blood after the long holiday season. Patients across the Ozarks count on CBCO donors to provide the blood they need. Giving that gift is a great way to start the new year, and I urge all eligible donors to answer the call during the 56-Day Challenge.” Please consider scheduling a blood donation. Find a blood drive near you and make an appointment to give at https://www.cbco.org/donate-blood/. On behalf of local hospital patients, CBCO thanks blood donors from across the region for giving life to your community.

DON'T RAISE THE RISK

During any kind of project around your home or property, remember there's more overhead than buildings, trees and sky. A ladder can easily reach high enough to cause potentially fatal contact with power lines.

Always look up before raising or moving a ladder to make sure it's at least 10 feet from any electrical lines. Keep your eye on power lines and your mind on working safely.

Entries wanted for watercolor exhibit

The Springfield Art Museum is pleased to announce a call for entries for Watercolor USA 2022, highlighting the very best in contemporary American watermedia. This year’s exhibit will run from June 4 through August 28, 2022. The deadline to apply is February 22, 2022.

Organized in 1962, this year marks the 61st year of Watercolor USA. The nationally known exhibition is open to artists from all 50 states and U.S. territories, and seeks to discover what is new and what is next in the world of American watermedia. This year’s exhibit will be judged by Kevin Umaña, co-founder of The Ekru Project, a Kansas City-based artist-run gallery focused on contemporary, emerging, and historically excluded artists.

Umaña’s personal artistic practice is devoted to both painting and ceramics. He received a B.F.A. from San Francisco State University with an emphasis in Printmaking. In 2019, he served as the artist-in-residence at the Center for Book Arts, NY. He has exhibited nationally and internationally with DC Moore Gallery, NY; Joshua Liner Gallery, NY; SIM Gallery, Reykjavik; and Koppel Project Hive, London. He has collaborated with Condé Nast, Wired Magazine, the London College of Music, and is a contributor to The Coastal Post. In 2017, he created a permanent art installation at the United Nations Headquarters in New York City.

Approximately \$20,000 in cash prizes, artist materials, and possible Museum purchase awards are available. Top awards include the \$3,000 Kenneth M. Shuck Memorial Award, the \$2,000 Greg G. Thielen Memorial Award, the \$1,500 Bill Armstrong Memorial Award, and the \$1,000 Robert E. Goodier Memorial Award For Traditional Transparent Watercolor, among others. Additional cash awards are generously provided by the Watercolor USA Honor Society.

Artists from all 50 states and U.S. territories, ages 18 and up, who are using watermedia as a critical component of their work are eligible to apply. Artists whose work pushes the boundaries of traditional watermedia are encouraged to enter. High realism, abstraction, traditional transparent watercolor, and innovative uses of the medium are all welcomed as the exhibit continues to expand and adjust with contemporary artistic practice, including the use of nontraditional supports and mounts. The Museum routinely purchases work from the Watercolor USA exhibition to expand its robust collection of contemporary American watermedia.

For full information on entry rules, entry fees, and how to submit artwork, please visit <https://www.sgfmuseum.org/246/Watercolor-USA>. The Springfield Art Museum is located at 1111 East Brookside Drive.

Haven of The Ozarks: Pet of The Week

Meet Delila, the Haven of the Ozarks Pet of the Week! Delila came to the Haven with her brother Samsun. They are both very friendly, sweet, playful kittens. Both are pretty laid back but can be rambunctious at times. They are up-to-date on all their shots, fixed, micro-chipped, negative for FIV and leukemia, and litter-box trained. Come meet one of these kittens today. Or, better yet, take both as two kitties are always better than one! The kittens estimated date of birth is July 8, 2021.
